

Fire Type	Extinguisher Type	Extinguishing Method
Ordinary Solid Materials  	Water	Removes heat
	Foam	Removes air and heat
	Dry chemical	Breaks chain reaction
Flammable Liquids  	Foam	Removes air
	CO2	Breaks chain reaction
	Dry chemical	
Electrical Equipment  	CO2	Removes air
	Dry chemical	Breaks chain reaction
Combustible Metals  	Special agents	Usually remove air
Cooking Oil Fires  	Alkaline-mixture (potassium-based liquid)	Removes air
